### **What the programme offers:**

The yearlong A4S programme offers you an opportunity to improve your Grade 12 Mathematics and Physical Science marks if you are willing to work hard.

Selected learners embark on a one-year (February – October) focused programme:

- Learners will receive 10 hours of tuition per week (Mondays to Saturdays) in both Mathematics and Physics. The purpose is to improve learners’ scores in the National Senior Certificate (Gr12) in these essential subjects to a level where they qualify for admission into an university to prepare themselves for critically important occupations in STEM (science, technology, engineering, and mathematics) professions
- Foundation skills development modules of 25 hours for both English Proficiency and Personal Development. These modules are presented to help to bridge the gap between school and university.
- ALL classes and modules are compulsory.
- Due to time and logistical constraints, unless special arrangements can timeously be made which do not interfere with the A4S programme or classes, learners will not be allowed to re-write any other subjects.
